ADVOCACY EFFORTS

Over the last 12 months, NECA WA strived to make conducting business in the WA electrical industry as easy and profitable for our members as possible. This includes collating and collecting feedback from our members, and lobbying government and other network operators on their behalf. NECA represents the WA electrical industry through its participation on:

- Western Australian Building and Construction Consultative Committee
- Premier's LNG Taskforce
- Premier's Battery taskforce working group
- UEEA Training council
- The Department of Training and Workforce Development on workplace evidence and Capstone requirements for the electrotechnology industry
- National Industry Reference Committee for training package review
- CTF Strategic Planning Group
- Reviewing the ANZSCO codes for skilled migration
- Representing WA RTOs on the National Electrical Training Advisory Group
- Providing policy advice to Building and Energy on training requirements for Restricted Electrical Licensing

Members continue to value the services of ECA Legal, who provide expert legal advice, assistance, and representation, tailored to the WA electrical industry.

- 20** Reviewed and prepared 20 commercial contracts
- 11** Assisted with 11 Enterprise Agreements
- 80** Prepared 80 Employment Contracts, IFAs and policies
- 924** 924 hours of Legal Advice provided to our members
- \$94k** Collected over \$94,000 of debt, for members

2022

BY THE

NUMBERS
